

## Landing Forms:

Once it is known that goods will be landed from a ship; such as, for families on the island, to ship out to home, or mechanical parts for repair a form (ship's form is accepted) has to be filled with detailed description of the items, value, and destination of package/box in order to present to customs for processing. Customs normally takes 2 business days to process these type of documents. Forms would have to be send to agent 48 hours prior ship's arrival to our port. For ships that are calling port of Aruba during the weekend landing forms would have to be send by Thursday as Customs main office is closed during the weekend. For any questions or concerns regarding landing goods feel free to contact Mr. Alex Perez whom is in charge of all landed goods.
